Leadtimes: For Repeat Custom Orders: Typical Leadtime is 4-5 Weeks.

For New Custom Orders: Typical Leadtime is 7-8 Weeks.

Custom Services: All stock Parkway jars are manufactured to meet average industry standards. These standards will not be suitable for all customer applications. Also minor variations in perceived quality occur between jars of different sizes due to the fact that all of our molds are not of the same age, style or condition. For this reason, we request that the customer test enough samples of our jars so as to decide whether or not our jars are suitable for the customer's intended application. If you find that our standard jar is not suitable for your application, we will be happy to review any special services or QC specifications you may feel are required, and submit a quotation for production run according to these requirements.

Minimum Runs: Minimum runs for flame treating, frosting and printing are ***10,000*** pieces. Pricing for less than minimum run is by quotation only. Printing price Add 10% for Custom items & 10% for special inks.

Printing Prices: Are based on average PPI requirements and printing specifications. Minimum printing gap of 1/2" required so that artwork will fit on jar. We reserve the right to over/under ship by 10%.

Orders for exact quantities add 8% to the total price of the order.

Flame Treating: All Items Printed by PPI are flame treated where necessary.

Items not printed by PPI may be flame treated at 65.00/m per side for sizes up to 58mm,

75.00/m per side for 63mm to 89mm, 85.00/m per side for 100mm to 120mm. Min 10,000pcs.

Flame Treating is a **TEMPORARY** process, Jars should be labeled or Printed on as soon as possible.

PPI does not make any guarantees express or implied regarding flame treating.

Silkscreen Printing: Silkscreen, Film & Art Charges are **\$300.00 per art color**. Screen charges do not include artwork adjustment charges or preparation charges which are quoted and billed separately.

Imprint or color changes are 75.00 per change.

Set Up Charges: for printing quantities below minimum (if approved) are \$325.

Preproduction Run: All printed orders are run according to our interpretation of commercial acceptability as regards according to their standards must request a pre-production sample to be run at start of job.
Run will be quoted and billed separately.

Shipping: All items are shipped **FOB Factory**.

Handling: All UPS and Prepaid (direct or third party billing redirected to Parkway) freight is increased to cover handling.
We reserve the right to over/under ship by 10%. Exact quantities add 5% to the total price of the order.

Returns: **No returns without authorization, Unauthorized returns will be refused.**

Debit Memos: PPI will not accept or honor Debit Memos. Any Credits due must be issued by PPI before they are taken.

Parkway always recommends that styrene jars, custom orders and printed items be shipped on pallets.

Parkway's products do not include pallets. Pallets with shrink wrap cost \$9.00 per pallet.

For All of your Induction Lining Sealing Needs

Parkway Plastics is pleased to announce that we are now a Certified Lepel Cap Sealing Equipment Distributor. When Parkway Plastics first decided to offer a line of cap sealing technology to make it easier for customers of all sizes to utilize our heat induction lined caps whenever leakage was an issue, we look for several things from a dealer

- ❖ Quality
- ❖ Reliability
- ❖ Reputation
- ❖ Customer Service
- ❖ And the ability to service a wide range of customer needs.

Lepel offers state of the art systems with offered the ultimate in reliability and performance as they are completely water-free and fan-free. Not only that but they integrate easily into a packaging line as they are shipped ready to roll up to the conveyor and begin sealing. Their new CS plus Jr. manual cap sealing system also has sealing heads that seal closures sizes from 5-58mm and 20-120mm making possible to use one machine for all of your sealing needs.

! Purchasing an induction requires much time and thought. It is important to test samples in advance of any major purchasing decisions to make sure that the machine and lining material selected is good for your desired application. While there are many lining materials available suitable for various purposes, if your application requires strict tolerances it is best to test and understand all options available before making your decision. For more information on any of our Lepel Cap Lining systems please contact ned.rowan@parkwayjars.com
