

# SureSeal® 200 Series

<b>Product Name:</b>	<b>SureSeal® 200 Series</b>
<b>Product Type:</b>	One piece, three-ply coextruded liner.
<b>Material:</b>	Low density polyethylene skin top and bottom with foamed polyolefin core.
<b>Composition:</b>	Core and outer skin fusion. Closed cell foam core of LDPE is sandwiched between polyethylene skin. This results in a chemically fused, single polymeric product.
<b>Composition Benefits:</b>	Symmetrical construction - either side serves as the liner face. Single polymeric product - no ply-separation.
<b>Application:</b>	Applications have provided positive sealing for foods, beverages, pharmaceuticals, cosmetics, industrial and household chemicals.
<b>Compatibility:</b>	SureSeal® 200 Series is chemically inert, odorless, tasteless and dust-free. Good resistance to acids, alkalis, slow solvents, alcohols, oils and aqueous products. Poor resistance to active hydrocarbon solvents.
<b>Performance Values:</b>	Excellent sealability, resiliency and compression recovery. Excellent torque retention.
<b>Thickness/Width:</b>	Available in thicknesses of .020" to .060" (+/- .005") Widths from 1" to 36" (+/- .031")
<b>Density:</b>	SureSeal® 222 = 24 < 28 lbs/ft <sup>3</sup> SureSeal® 226 = 26 < 30 lbs/ft <sup>3</sup>
<b>Color:</b>	FDA approved white. Custom colors available upon request.
<b>FDA Status:</b>	Drug Master File #12831. This material complies with FDA regulation 177.1520(c)3.1 for food contact application.
